

Soumadip Das

Web Developer & AI-ML Engineer

9761244560 ✉ soumadipd559@gmail.com ✉ Haridwar, Uttarakhand, India ✉ [LinkedIn](#) ✉ [GitHub](#)

SUMMARY

Motivated and enthusiastic student pursuing a career in technology, passionate about artificial intelligence, machine learning, robotics, and software development. Constantly exploring new innovations and enhancing technical skills to contribute effectively to the tech industry.

EDUCATION

COER University, Uttarakhand

(2024 - Present)

Pursuing B.Tech in Computer Science Engineering (AI & ML)

JNV Haridwar

(2017 - 2024)

Completed Schooling (Grades 6-12)

PROJECTS

Predicting Signal Strength from Frequency Using Deep Learning Models

The Project builds a machine learning system to predict signal strength from frequency values

Ohm-Mitra Chatbot

Built an autonomous chatbot with AI capabilities

Elder Assistance System Web-App

Created a web application to assist elderly people in managing daily life

Experience

1. Internship from IIT Roorkee.

CERTIFICATIONS & ACHIEVEMENTS

Hackathons Certificate

2 time Inspire Manak Award Winner (10th & 11th Grade)

- Organized by National Innovation Foundation - India. Presented an innovative idea of a **Magnetic Car Engine** to replace conventional engines and reduce pollution.

Participant - Dell Innovation Hackathon

- Built the **Self Fire Brigade Robot** to automatically sense and extinguish fire.

SKILLS

Programming Languages

: C++, Python, Java(Basic)

Web Development

: HTML, CSS, JavaScript(Basic)

Developer Tools

: Visual Studio Code

Productivity Tool

: Microsoft PowerPoint, Microsoft Excel, Microsoft Word
